Asunto: Security Alert. Your accounts was hacked by criminal group.

Hello!

I have very bad news for you.

17/07/2019 - on this day I hacked your OS and got full access to your account XXXX.

You can check it - I sent this message from your account.

So, you can change the password, yes.. But my malware intercepts it every time.

How I made it:

In the software of the router, through which you went online, was a vulnerability.

I just hacked this router and placed my malicious code on it.

When you went online, my trojan was installed on the OS of your device.

After that, I made a full dump of your disk (I have all your address book, history of viewing sites, all files, phone numbers and addresses of all your contacts).

A month ago, I wanted to lock your device and ask for a not big amount of btc to unlock.

But I looked at the sites that you regularly visit, and I was shocked by what I saw!!!

I'm talk you about sites for adults.

I want to say - you are a BIG pervert. Your fantasy is shifted far away from the normal course!

And I got an idea....
